freezing tunnels, cold room doors (sales, assembly, disassembly)

Agro-Star provides technical consultancy on the selection of food processing lines, particularly freezing tunnels of various types and by various manufacturers. Another area of activity is the disassembly, relocation and reassembly of production lines in food plants worldwide. In 2006 the company started cooperation with two manufacturers of cold room doors, namely EMS (Germany) and Isocab (Belgium), and since then Agro-Star has been servicing the products of both these companies.

jams, sugar-free jams, low-sugar jams, fruit preserves, plum spreads (Polish povidel), mixed fruit marmalades, artificial honey, tomato pulp, ketchup, roasted apples, pitted cherries for cakes, aseptically packed fruit and vegetables

The firm has been producing fruit and vegetable preserves for over 50 years. All products are made from first-class ingredients according to traditional recipes, using innovative technologies. The fruit used in the production process comes from the company's own orchards located in the ecologically clean Warmia and Masuria region as well as from local producers. Thus, the final products are safe, healthy and of high quality. The firm offers jams, sugar-free jams, low-sugar jams, fruit preserves, plum spreads (Polish povidel), mixed fruit marmalades, artificial honey, tomato pulp, ketchup, roasted apples, pitted cherries for cakes, aseptically packed fruit and vegetables. These products are sold in the whole of Europe as well as in USA and Canada. Customers include super and hypermarkets, wholesale stores and horeca establishments. The firm also produces fruit preserves for retail chains under their labels. The firm has an innovative machine for aseptic packing. This technology enables long storage of fruit and vegetables without preservatives.

hard caramel sweets, caramel sweets with filling, caramel sweets in chocolate coating

Fabryka Cukierków (Sweets Factory) „Pszczółka”, a company with a long tradition, is Poland's leading manufacturer of caramel sweets. Our sweets are made from high quality natural ingredients, and chocolate is produced from the best cocoa beans. As a result of its quality policy, the company has received several awards and diplomas, including the prestigious title and logo of the „Polish Product”, „Najlepsze w Polsce” („the Best in Poland”) certificate, the title of „Polski Producent Żywności 2008” („Polish Food Manufacturer 2008”) and the „Orzeł Agrobiznesu” („Agribusiness Eagle”) award. We offer well-known and popular kinds of sweets in a variety of packages. Particularly worth recommending are the following products: Miętowe Lubelskie – mint caramel sweets with chocolate filling; Musss... – fizzy sweets with five different fruit-flavoured fillings; Jogusie – sweets with milk filling available in four flavours; Kukulki – traditional Polish sweets with alcohol filling; and Czekoladowa Mieszanka Imieninowa – an assortment of blackcurrant and strawberry-flavoured sweets in chocolate coating. High quality of our products is guaranteed by an integrated ISO and HACAP quality management system. For more information please visit the company's website [www.fcpszczolka.pl](http://www.fcpszczolka.pl). Should you have any questions, feel free to contact us.

natural honey, meads fermented at low temperature, vodkas, honey liqueurs, honey okovita, bottling service under customer's label

Mazurskie Miody (Masurian Meads) is a producer of meads and other alcoholic beverages, as well as many types of natural honey. It is the only firm in Poland and one of the few ones all over the world to manufacture meads fermented at low temperatures. As a result, the meads retain all the health benefits of natural honey. Alcoholic beverages are made of crystal clear water, top-quality pure grain spirit and – depending on the type – various natural ingredients such as fruit juice, spices or honey. The firm also offers bottling service under a private label.

a large variety of traditional Polish dishes: potato dumplings (pyzy), dumplings with meat, Silesian dumplings (kluski śląskie), small dumplings (uszka) with meat, with mushrooms, with mushrooms and sauerkraut, small Christmas Eve dumplings, dumplings (pierogi) with meat, with sauerkraut, with mushrooms and sauerkraut, Russian dumplings with potatoes and curd cheese (pierogi ruskie), dumplings with blueberries, grilled baguette with champignons, Dębica-style beef tripe, baked beans in tomato sauce, Dębica-style hunter's stew (bigos), cabbage rolls (goląbki), croquettes with sauerkraut and meat, croquettes with sauerkraut; distribution of ice cream, chips, frozen fruit and vegetables, frozen fish, frozen pizza and frozen bread

Since its establishment, the firm has been operating and expanding its presence in the food sector. In the meantime it started to focus on the distribution of ice cream and frozen food. Currently, Mateo specializes exclusively in this range of products and acts as a direct distributor for all major manufacturers of ice cream and frozen food in Poland. Moreover, having noticed a market demand for frozen flour-based foods, the company started producing a variety of dumplings. It now manufactures over 25 different types of dumplings, which are made using proven traditional recipes. Thanks to the high quality of its products, Mateo has been able to win both domestic and foreign markets. The company offers a delicious, healthy, economical and practical solution to all those who do not have the time or skills to prepare an original meal.

handmade regional cakes and bio-cakes such as traditional sekacz, spelt biscuits, apple-pies made of wholemeal rye flour, original cheesecakes, croissants, ginger breads, poppy-seed cakes, elegant layer cakes for different occasions; dumplings fried in goose fat, savoury pastry with filling (paszteciki)

Cukiernia Zaniewicz is a family run confectionary business set up in 1993. For over 20 years the company has been specializing in the production of traditional sekacz cake and other regional cakes as well as elegant layer cakes. Additionally, in 2005 Zaniewicz started making bio-cakes. The company exhibits its products at international confectionery fairs and local festivals promoting Polish culture and cuisine. It was one of the founders of the Polish Chamber of Regional and Local Product and is an active member of national ecological associations. It searches for old Polish recipes for cakes so as to contribute to the revival of Polish culinary traditions based on high-quality natural products. An example is Zaniewicz's sekacz cake made from fresh eggs, genuine butter, top-quality flour, sugar and lemon. Sekacz (literally 'a knotty fir tree') makes a delicious dessert after a festive meal, an excellent wedding or Christmas present, or a sweet souvenir from Poland. It is sold wrapped in an elegant and functional packaging with descriptions in Polish, English and German. However, making sekacz cake is not an easy job: it requires an artistic approach and a lot of patience. The baking process consists in pouring subsequent layers of dough on a wooden roller rotating over open fire. The rotary movement of the roller makes the dough drip and form the characteristic fir-like shape. The taste and flavour of the cake are reminiscent of the place it originates from - former Polish Eastern Borderlands. Confectionary from Zaniewicz - Polish tradition and supreme quality.

### Regional Investor Assistance Centres (COI)

They are partners of the Polish Information and Foreign Investment Agency (PAIIIZ) at the regional level. The Centres provide consultancy and information services for business entities considering investment projects in a particular area. COIs also provide dedicated service and investment guidance, including post-investment support within the voivodeship where the project is located. The network of COIs has been created in conjunction with the Marshals of Voivodeships who are statutorily responsible for economic promotion of the region.

### Investor Assistance Offices (BOI)

The Offices, based in City Councils, undertake actions to stimulate the city's economic activity. They provide direct support and assistance to investors who wish to locate their investment projects in a given municipality. They also draw up and update the city's investment offer by cooperating with other local government units.

## Regional Development Agency (ARR)

The Agencies provide consultancy and advisory services, identify the needs of businesses, define the nature and scope of assistance required, and determine available support instruments. They provide information on current subsidy programmes and eligibility requirements, promote programmes addressed to businesses, collect and evaluate applications for subsidies and forward them to the Polish Agency for Enterprise Development (PARP).
