

Information brochure

PAIH's database of investment sites

The investment database is a free tool that provides a complete set of information on investment sites on offer, thanks to which interested Entrepreneurs and Investors can easily locate the best real estate for their needs.

The information in the database has been divided into the following categories:

- greenfield sites
- brownfield sites
- office space
- tourist investment offers

**The database of investment
sites offers is available at:**

About us

We are the first point of contact for exporters and investors, offering support both in Poland and on dozens of markets around the world. We are part of the Polish Development Fund Group (PFR).

Our mission is to support entrepreneurs and businesses at home and abroad.

We operate through our network of Foreign and Regional Trade Offices (ZBH and RBH), which support companies at every stage of their expansion. We offer a free consulting service, which makes us a unique partner for Polish entrepreneurs looking for new markets and for foreign contractors and investors interested in investing in Poland.

We attract leading foreign investors.

20+ years of experience

70+ markets

300+ experts

→ Planning to invest in Poland?

We offer comprehensive, free support in the implementation of Polish and foreign investments.

Our experienced team of experts who have a practical attitude and excellent business acumen will ensure your investment process is as smooth as possible.

Cash Grant Program

→ Are you interested in establishing cooperation with a Polish exporter?

We have a presence in most markets. Supporting Polish entrepreneurs at every stage of their export project, we are constantly on the lookout for potential foreign contractors.

PAIH's Foreign Trade Offices

Our network of Foreign Trade Offices supports foreign companies that want to establish cooperation with Polish exporters.

We initiate the first talks, organise B2B meetings and business missions.

Our goal is to effectively connect foreign companies with possible Polish partners, supporting both parties in the process of negotiations and establishing long term business relations.

Why Poland?

Poland is characterized by a stable economy and excellent conditions for doing business.

Our strong macroeconomic position and resilience to global economic crises make Poland an ideal place to invest.

See for yourself:

The place for safe and dynamic investments

→ **Strategically located in the heart of Europe**

- Poland is located in the centre of Europe, which provides easy access to the key markets of the European Union and Eastern Europe
- Investors benefit from an extensive transport and logistics infrastructure that facilitates international trade

→ **A country of innovation with a huge potential to grow**

- Poland focuses on innovation, offering excellent conditions for the development of technology and modern solutions
- Sectors such as IT, high-tech industry and renewable energy sources are growing rapidly

→ **Investment potential and divers sectors**

- Poland offers extensive investment opportunities in key sectors such as manufacturing, technology, renewable energy and automotive
- Investors will find the right conditions for long-term and stable investments

→ **Human capital and demographics**

- Poland has a young and qualified workforce, ready to operate in dynamically developing sectors
- Polish employees are valued for their innovation, flexibility and competence

→ **Economic stability and a strong economy**

- Poland has a stable and well-established economy, which has for years been growing in strength
- Despite global economic challenges Poland maintains financial stability making it a safe place to invest
