## List of Major Foreign Investors in Poland in 2008

### I. Foreign direct investment worldwide, with particular emphasis on the new European Union member states (according to UNCTAD)

In 2008 the international crisis has led to major decrease in world FDI flows. The total value of FDI has decreased by 14.5% on previous year, to the level of USD 1685.5 billion. According to the United Nations Conference on Trade and Development (UNCTAD) the fall was the result of lower FDI inflows to developed countries.

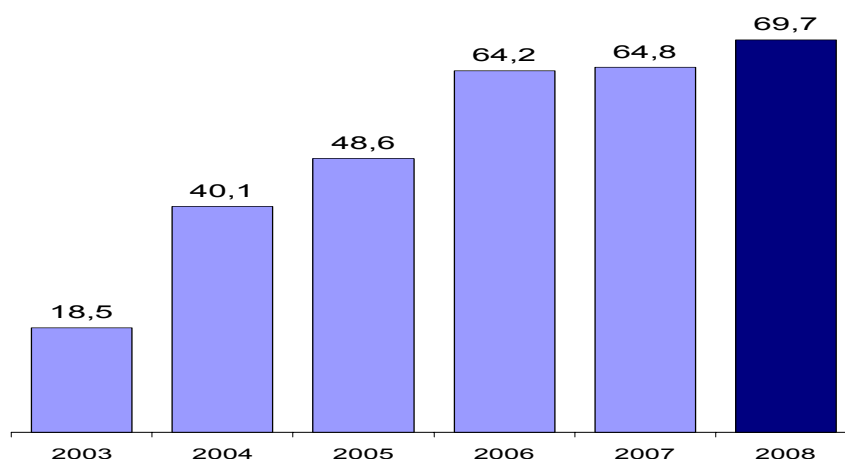

Compared to the previous year developed economies attracted 20% less FDI (USD 1002 billion). Developing countries acquired more than USD 549 billion, which was 10% more than in 2007. Transition countries have attracted 12% more FDI than a year before. The value of FDI inflows to the 12 new EU members was USD 70 billion, 5 billion more than in 2007. Among the new EU member states Poland which has recorded the highest level of FDI inflow was followed by Romania, Czech Republic and Bulgaria.
