List of Major Foreign Investors in Poland in 2009

I. Foreign direct investment worldwide, with particular emphasis on the new European Union member states (according to UNCTAD)

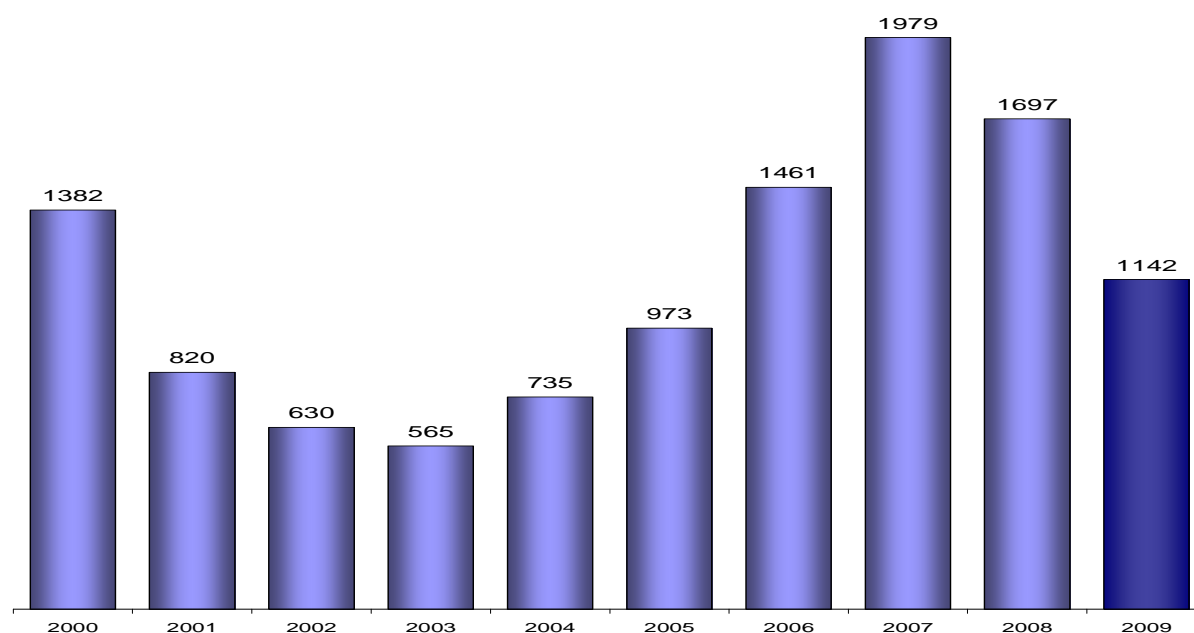

In 2009 the developing international crisis has led to further decrease in world FDI flows. The total value of FDI has plummeted by 35.3% on previous year, to the level of USD 1141.9 billion. Compared to record level of USD 2 trillion recorded in 2007 the fall was even bigger and reached 43%. According to the United Nations Conference on Trade and Development (UNCTAD) the fall was the

result of lower FDI inflows to all recipients, both developed and developing economies.

Compared to the previous year developed economies attracted 44% less FDI (USD 567 billion). Developing countries acquired more than USD 478 billion, which was 24% less than in 2008. Transition countries have attracted 43% less FDI than a year before.

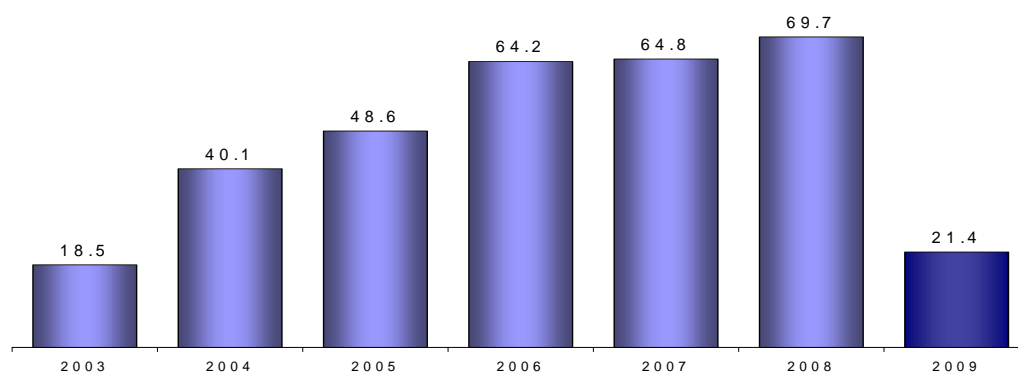

The value of FDI inflows to the 12 new EU members was USD 21 billion, a dramatic fall from USD 70 billion in 2008. Among the new EU member states Poland which has recorded the highest level of FDI inflow was followed by Romania, Cyprus and Bulgaria.
