LIST OF MAJOR FOREIGN INVESTORS IN POLAND

December 2011

I. Foreign direct investment (FDI) worldwide, with particular emphasis on the new European Union member states (according to UNCTAD)

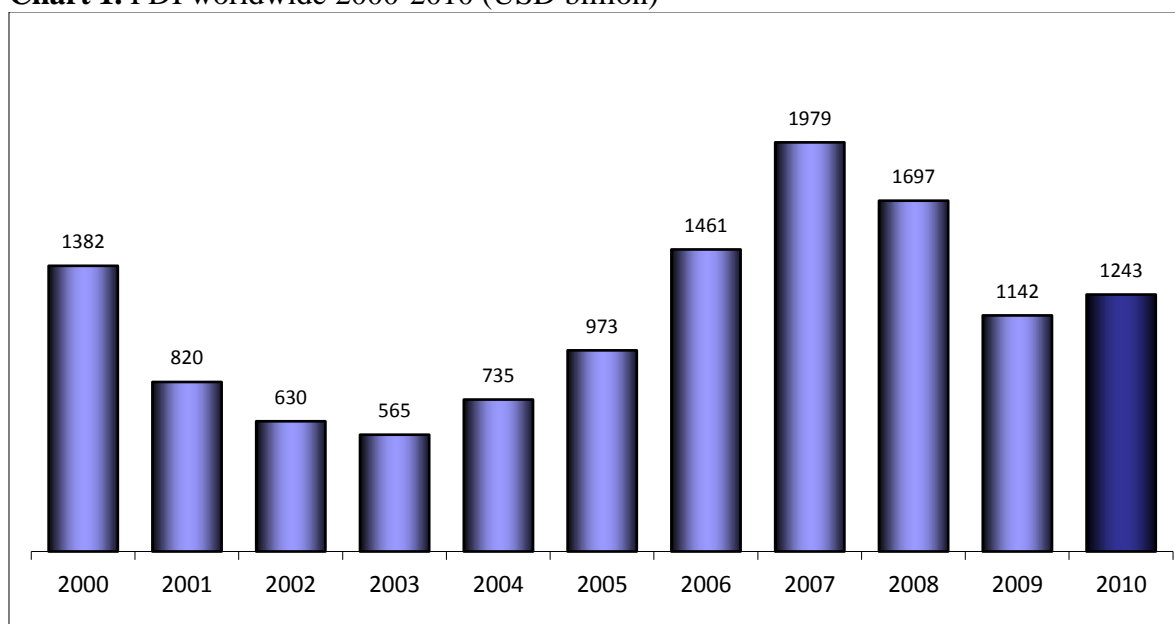

In 2010, after 2 years of decrease in global FDI flow the trend has finally changed. The FDI flow in 2010 equaled USD 1.24 trillion, compared to USD 1.14 trillion in 2009 (change by 8.8%). However, the FDI level is still 15 percent below the pre-crisis average and 38% below the record level of USD 2 trillion recorded in 2007. According to the United Nations Conference on Trade and Development (UNCTAD), the increase was a result of higher FDI flow to developing and transition economies. For the first time, these economies together attracted more

than half of global FDI flows. In contrast, despite the general trend, the FDI inflows to developed countries continued to decline.

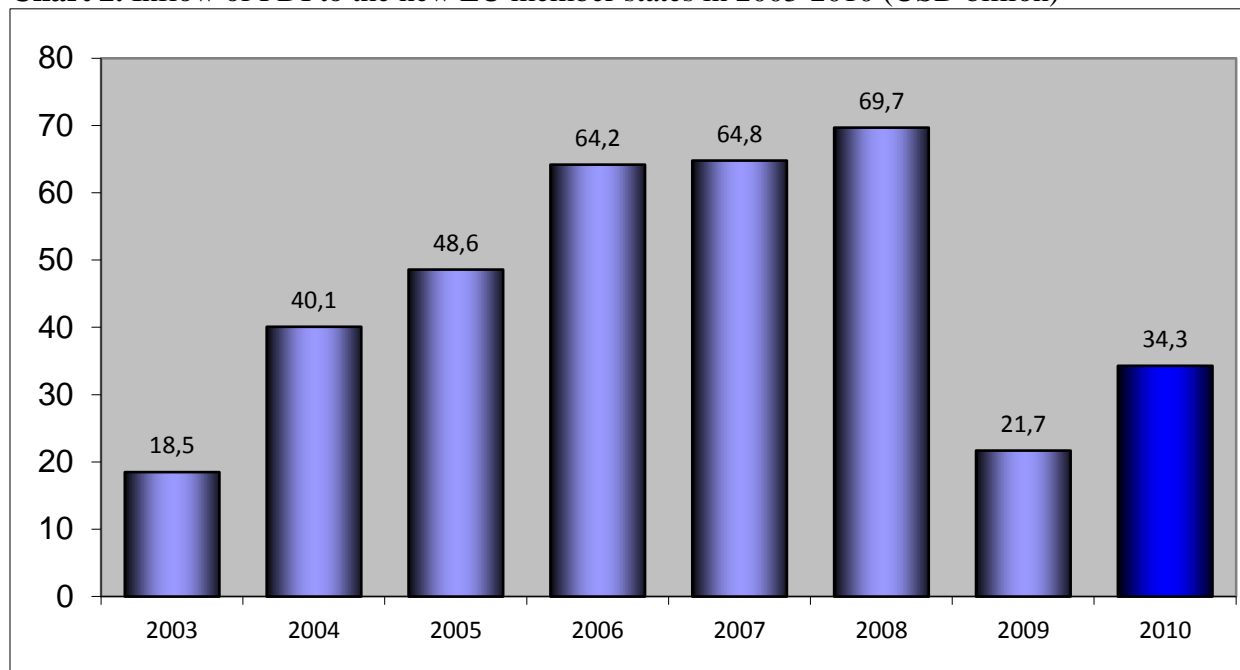

Compared to the previous year, the developed economies attracted 1% less FDI (USD 602 billion). Developing countries acquired more than USD 574 billion, which was 12% more than in 2009. Transition countries have attracted 5% less FDI than a year before.

The value of FDI inflows to the 12 new EU members was USD 34.3 billion, a significant growth from USD 21 billion in 2009. Among the new EU member states Poland, which has recorded the highest level of FDI inflow, was followed by the Czech Republic, Cyprus and Romania.

III. Economic activity of companies with foreign capital in 2010 (according to Polish Statistical Office)**1. Number of companies with foreign capital in 2009.**

In 2009 Polish Statistical Office (GUS) recorded in Poland 22,176 companies with foreign capital, 5.1% more than in 2008. Among 1,172 new entities with foreign capital the majority (984 companies) was greenfields. Among all the companies, the major group (83.1%) was small companies, i.e. those employing up to 49 people. The greatest importance, however, had 1,131 big companies (employing over 250 persons), which accounted for 59.7% of share capital and 70.2% of employment. In terms of the business sector, 39.3% operated in manufacturing, 24.3% of all companies were active in trade and repairs.
