garage and industrial gates, thermal blinds, exterior blinds, aluminum and PVC blinds, textile shades, pleated blinds, window mats, façade shutters, exterior textile blinds and other types of shields

The company manufactures innovative thermal insulation shields which effectively reduce heat loss in winter and protect against unwanted heat in summer. The shields include: Thermal doors – so-called 'warm' garage doors (for cost-effective and passive houses) and industrial doors (doors for production halls, warehouses, garages and workshops, service stations and others); Thermal blinds – exterior and interior - thermal insulation blinds and other shields, efficient and pleasant for the eye, steered manually or mechanically, also partly or fully automated. The production is based on trustworthy, hand-picked suppliers of components, with regard given to high-tech, design and reliability. Jacker also offers professional consulting services assisting customers in making the right choice and buy optimum systems in terms of insulation characteristics and design. The company provides installation services.

boats including: sailing boats (Balt 17 Family, Balt 23 Armor, Balt 26- NEW, Balt 27- NEW), houseboats (SunCamper 30 – the winner of the Poland's Yacht of the Year 2011), outboard motorboats (Quicksilver 430, Quicksilver 640 PH, Quicksilver 675 Open), inboard motorboats (Arvor 215, Arvor 215 AS, Arvor 280 AS), open boats – rowing and motorboats (Quicksilver 360 FISH, Quicksilver 410 FISH)

A modern boatyard with a long tradition and experience. Balt-Yacht company was set up in 1990 but the tradition and knowledge related to boatbuilding have been in the family since pre-war times. The company is a renowned builder of motorboats, sailboats and rowing boats. It specializes in building yachts and boats from polyester glass-fiber laminates, typical length of the hull is 3 to 15 meters. The manufacture process takes place in production halls with total area of 7000 m². Balt-Yacht has also got its own boat transportation facilities, including 10 boat trailers. The facilities are constantly upgraded and the company is ready to welcome new customers.

HABER YACHT started its operations in 1991. Its focus is on quality of the final product, so demanding customers with an eye for quality, style and attention to detail are most welcome. HABER yachts are dedicated to connoisseurs with the knowledge needed to appreciate boat's sailing properties, its safety and comfort, as well as a perfect blend of modern functionality and traditional design. Boats are built only on individual demand, each yacht is exceptional and confers that sense of uniqueness to the customer. Recently the boatyard started to expand its services and apart from mould technology, it offers boats built in a special one-off technology, thanks to which customers are free to decide on the size of the boat that will best suit their needs. Moreover, boats built in this latest technology are particularly durable, have a strong structure, great thermal insulation and resistance.

Regional Investor Assistance Centres (COI)

They are partners of the Polish Information and Foreign Investment Agency (PAliIZ) at the regional level. The Centres provide consultancy and information services for business entities considering investment projects in a particular area. COIs also provide dedicated service and investment guidance, including post-investment support within the voivodeship where the project is located. The network of COIs has been created in conjunction with the Marshals of Voivodeships who are statutorily responsible for economic promotion of the region.
