commercial vehicles with a GVW up to 3.5 t, 4x4 off-road vehicles with a GVW up to 3.5 t

HONKER Automobile Plant, formerly known as DZT Sp. z o.o. Automobile Plant in Lublin, is a manufacturer of light commercial vehicles (gross vehicle weight up to 3.5 t) and automotive parts. In 2009, the bankrupt automobile plant in Lublin was purchased in order to revive the production of Polish commercial vehicles, i.e. HONKER CARGO (a successor of the popular LUBLIN make) and HONKER 4x4 (a universal off-road vehicle). HONKER CARGO comes in several body versions: chassis for mounting different bodies, dropside van, crew van, and box van. The company is also planning to introduce panel vans, extended panel vans, insulated vans, refrigerated vans and special-purpose vans. In autumn 2010 HONKER 4x4 was approved for civil use and can be used e.g. by power grid maintenance services, surveying services or in forestry and mining sectors. Moreover, the company offers a wide range of sheet metal pressings and services in the field of electrophoretic coating of metal surfaces (cataphoresis).

steel wires, brass wires, EDM wires, copper wires, copper-plated wires, nickel-plated wire, tin-plated wires, other wires

Wolco has been operating in the metallurgic sector since 1984. It manufactures fine wires with diameters ranging from 0.15 to 0.80 mm as well as copper and brass wires with diameters ranging from 0.15 to 2.20 mm. Depending on customer needs, wires can be galvanically or chemically coated with other metals: nickel, copper, tin and zinc. Our main product is low-carbon steel copper-plated wire with a diameter of less than 0.80 mm for the production of wire coil nails. The company also makes EDM brass wires of \varnothing 0.15 - \varnothing 0.30 mm, which are sold under trade names WOLCUT 460, 500 and 900. Optionally the wires can be plated with zinc.

Regional Investor Assistance Centres (COI)

They are partners of the Polish Information and Foreign Investment Agency (PAIIZ) at the regional level. The Centres provide consultancy and information services for business entities considering investment projects in a particular area. COIs also provide dedicated service and investment guidance, including post-investment support within the voivodeship where the project is located. The network of COIs has been created in conjunction with the Marshals of Voivodeships who are statutorily responsible for economic promotion of the region.
