Ladies and Gentlemen,

Goldsmith's art is not only a medium of universal esthetic values, but it also allows for promotion of signs, symbols and traditions which constitute the identity of individual countries and nations. A bridge is built not only between the industry and the consumer, but primarily between the nations.

Therefore we are extremely proud to present in Sofia examples of the Polish school of jewelry design and applied art that already earned acclaim around the world. We present a selection of exclusive Polish modern jewelry, which in its form uses a blend of amber and precious metals, and examples of industrial design, which combines tradition with modernity. Maybe you will find a favorite product among the presented exhibits and will choose to vote for it? We encourage you to take part in our contest.

I would like to express my gratitude to all the partners involved in the preparation of the exhibition. I would like to thank especially the Trade and Investment Promotion Section of the Embassy of the Republic of Poland in Sofia, thanks to whom you have the opportunity to participate in this unique event.

We kindly invite you to the selected works of Polish jewelry and industrial art designers. We hope that the exhibition will be an unforgettable experience for you.

Sławomir Majman

President of the Board

Polish Information and Foreign Investment Agency

Ladies and Gentlemen,

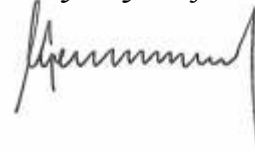

It's my pleasure to invite you to this special exhibition, which presents outstanding achievements of Polish designers. These achievements represent remarkable artistic and functional values which are an expression of contemporary artistry. The Polish design, although world-known, is still undiscovered by Bulgarian public. I do hope that our show and exhibitions will help to discover the eye-catching creations from Poland.

The exhibited pieces of work have been created by designers who cultivate best traditions of Polish industrial design which by virtue of the materials used, very original aesthetic form, innovative constructional solutions, and high functionality have earned worldwide high reputation.

Hereby, I would like to express my thanks to the Polish Information and Foreign Investment Agency for all the help and involvement in organizing the "Designed in Poland" exhibition, for making this art show possible.

Encouraging your interest in the exhibition "Designed in Poland" and inviting you to visit it, I would like to wish you an unforgettable tour over the exposition.

Krzysztof Krajewski

Polish Information and Foreign Investment Agency

The Polish Information and Foreign Investment Agency (PAIiZ) has been servicing investors since 1992. Its mission is to create a positive image of Poland in the world and increase the inflow of foreign direct investments by encouraging international companies to invest in Poland. PAIiZ is a valuable partner for foreign entrepreneurs entering the Polish market. The Agency guides investors through all the essential administrative and legal procedures that involve a project. It also provides rapid access to complex information relating to legal and business matters regarding investments. Moreover, it helps in finding the appropriate partners and suppliers together with new locations.

On the website www.paiz.gov.pl an investor can find all the necessary information concerning key facts about Poland, the Polish economy, legal regulations in Poland and all detailed information which could be useful for any company wanting to set up a business in Poland.
