Opolskie region

OPOLSKIE
FLOURISHING OPOLSKIE REGION

Opolskie region – European region in Southern Poland

Opolskie region is a region that draws its strength from a multinational heritage. The most important trade routes in Central Europe crossed there their paths for centuries while local traditions were shaped by Germans, Poles and Czechs.

This extraordinary geographic position on the crossroad of different paths of cultures has a strong influence on the region from the economical aspect. Residents of Opolskie stand out for their diligence, commitment to tradition and openness to the world. Businesses generally praise the high level of work ethic, education and involvement of employees in local companies. A relatively high German minority (about 10% of the total population) also means a better connectivity to German, Austrian and Swiss markets.

Local administration and authorities have been successfully attracting investors in these years and are currently developing necessary infrastructure to attract even more. Attractive investment areas are available along A4 motorway, linking Opole with Wrocław, Katowice and Kraków, as well as the markets of Germany and Ukraine.

Opolskie voivodship enjoys a reputation among foreign investors, particularly in the food processing, chemical, metal hardware and construction sectors. According to recent analysis by Deloitte, the region can expect new investment projects in the automotive, engineering, food, glass, chemical, paper and R&D sectors.

The region is renowned for its high life standard and flourishing academic center. Local residents and investors have a wide choice of active leisure and resting options.

Food industry in Opolskie region

Food processing sector has a rich tradition in the region. We will find numerous manufacturers of meat, processed meat, fruit, vegetables, bakery products, dairy products and sweets. Ecologically clean terrains are very supportive for cultivation of edible vegetables and animal husbandry.

The capital structure of the industry is diverse. In the region there are firms belonging to international groups, including the world's largest corporations such as Danone, Nestle or Mondelez (formerly Kraft) and companies with exclusively domestic capital (family owned butchers, bakeries, or producers of sweets, etc.). A great number of local food products concentrate on manufacturing products for export, exploiting the strategic geographic position of the region. In Opolskie voivodship, we may find companies that sell products under their own brand, as well as those that supply products with third-party brands, usually for large market chains (private labels).

The food industry in Opolskie voivodship is supported by a well-developed road and rail infrastructure, as well as by a favorable geographical location in the middle of Europe, which simplifies the logistics chain and reduces the cost of transporting the goods to customers.

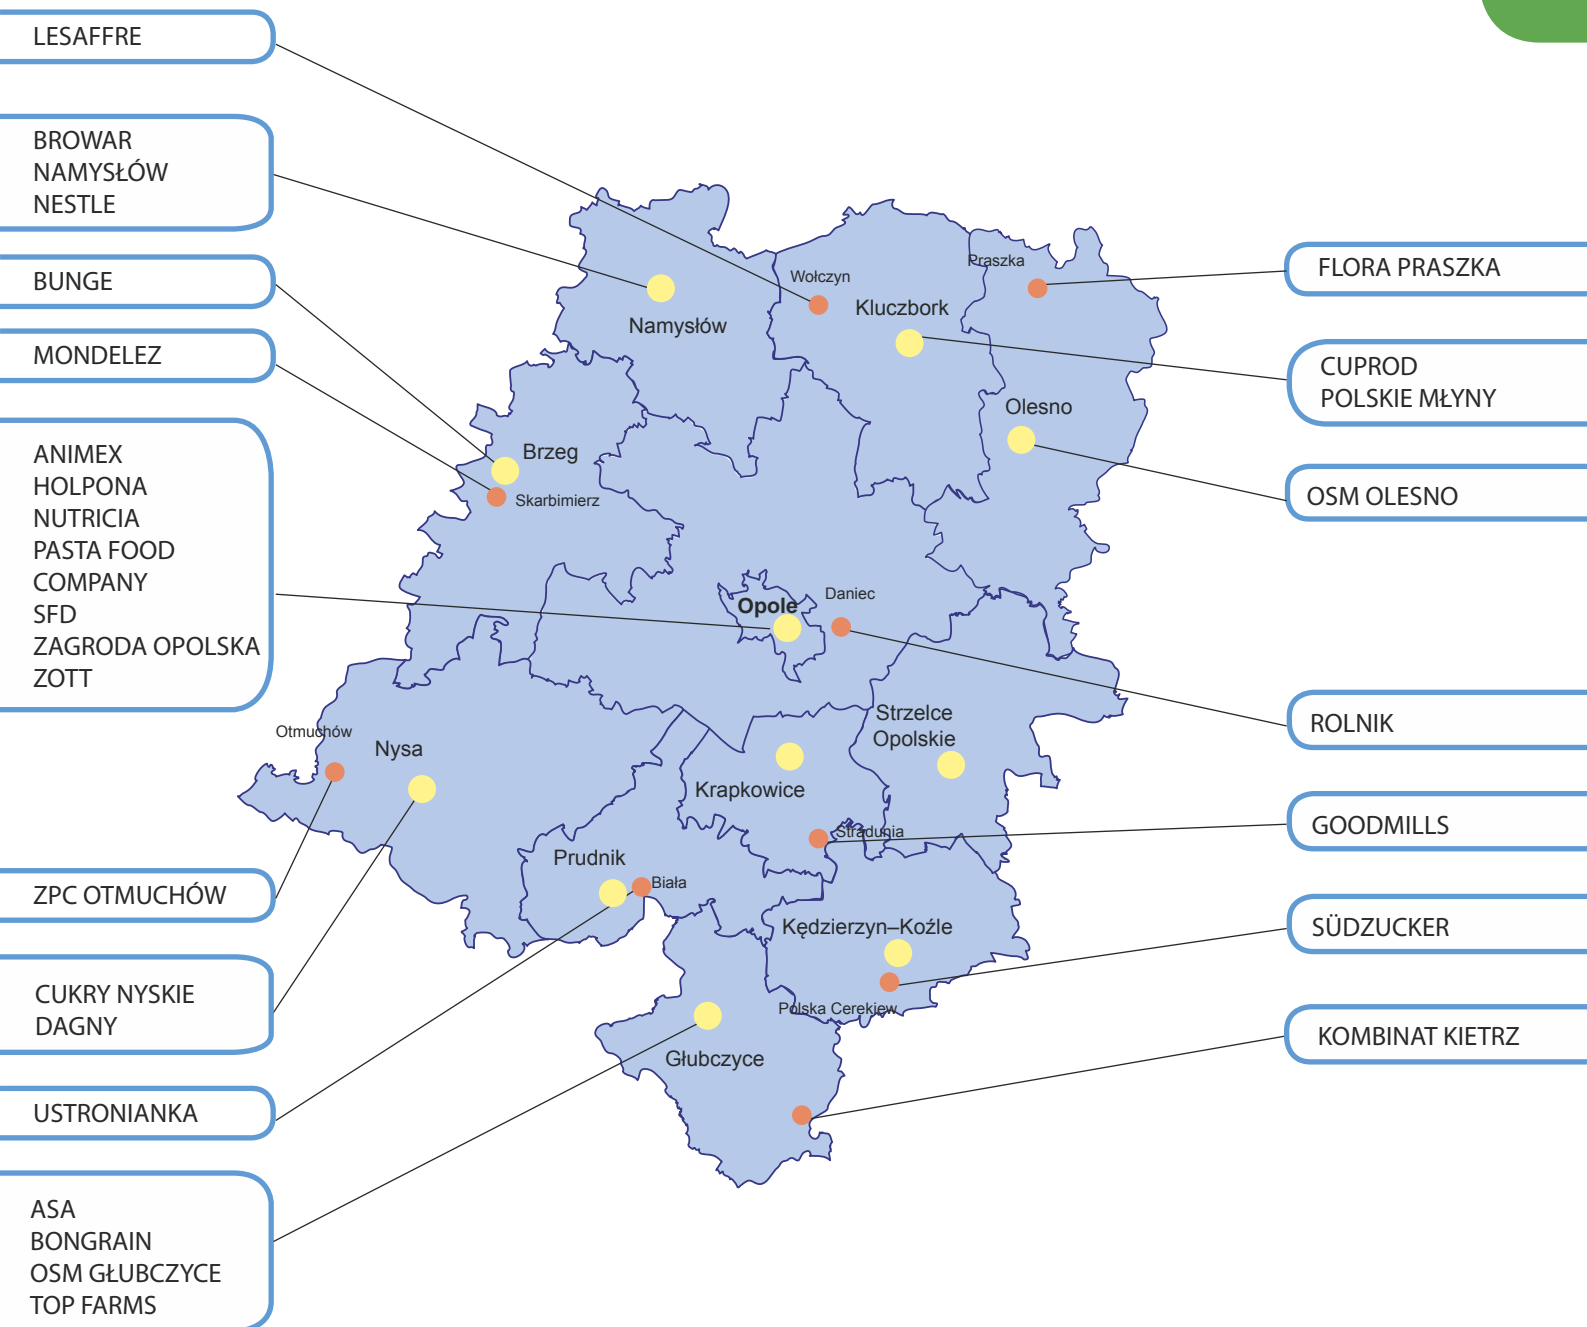

Packaging industry in Opolskie voivodship

An important sub-contracting sector for food producers consists of packaging manufacturers. In Opolskie voivodship there are numerous packaging producers supplying their clients with a wide range of packaging solutions. In the region there are also several flexographic printing facilities.

					
Glass containers	Cardboards and paper packaging	Cardboards	Cardboards	Cardboards	Cardboards
					
Cardboards	Foil packaging	Foil packaging	Foil packaging	Plastic packaging	Plastic packaging
					
Thermo-shrinkable packaging	Paper bags	Paper bags	Metal made containers	Photo-polymer printing forms, printing inks, cutting dies, graphic design	

You can find contacts of local packaging in the table at the end of this folder.
