The Hard Facts

Fastest New Business Creation

Plug & Play

It takes just 1 day to launch a company in Latvia

Hot Spot

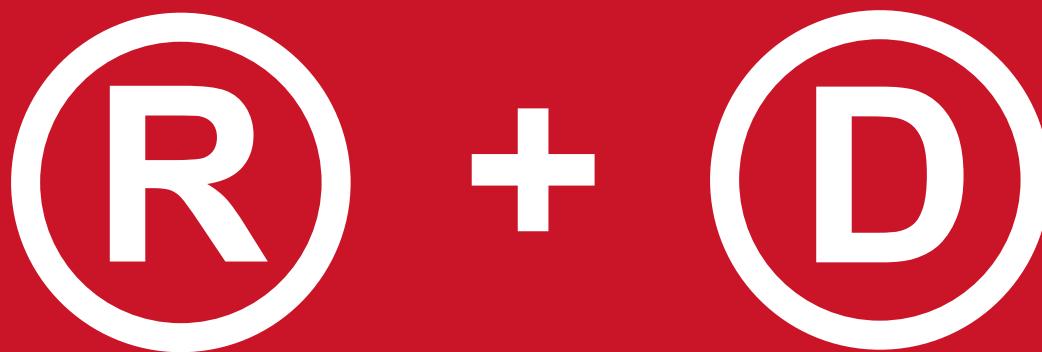

Latvia is in the centre of the Baltics. With a highly developed transportation, logistics and ITC infrastructure and proximity to some of the world's most interesting markets, Latvia is an ideal hub for international business and commerce.

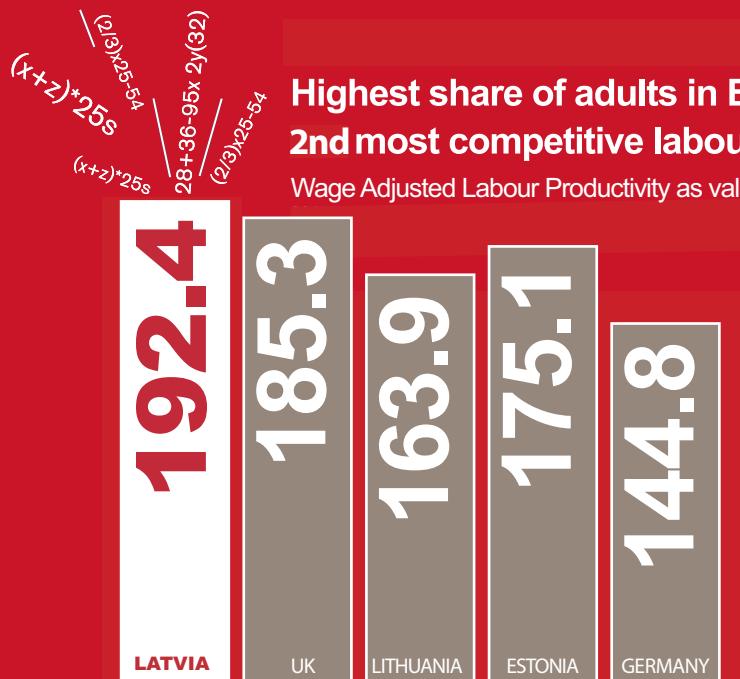

Specialized in Research and Development

Innovation Tank

Historically speaking, Latvia was the Research and Development centre for all Eastern Europe and Russia. As a result, today we have one of the leading and most prominent R&D clusters for the development of equipment for biotech research laboratories.

Europe's overachievers

Highest share of adults in EU proficient in foreign language.
2nd most competitive labour force in the EU.

Wage Adjusted Labour Productivity as value added divided by personnel costs times 100 (2013)
