Energy sector

## The largest companies / investors in the region

### Tarnobrzeg Special Economic Zone

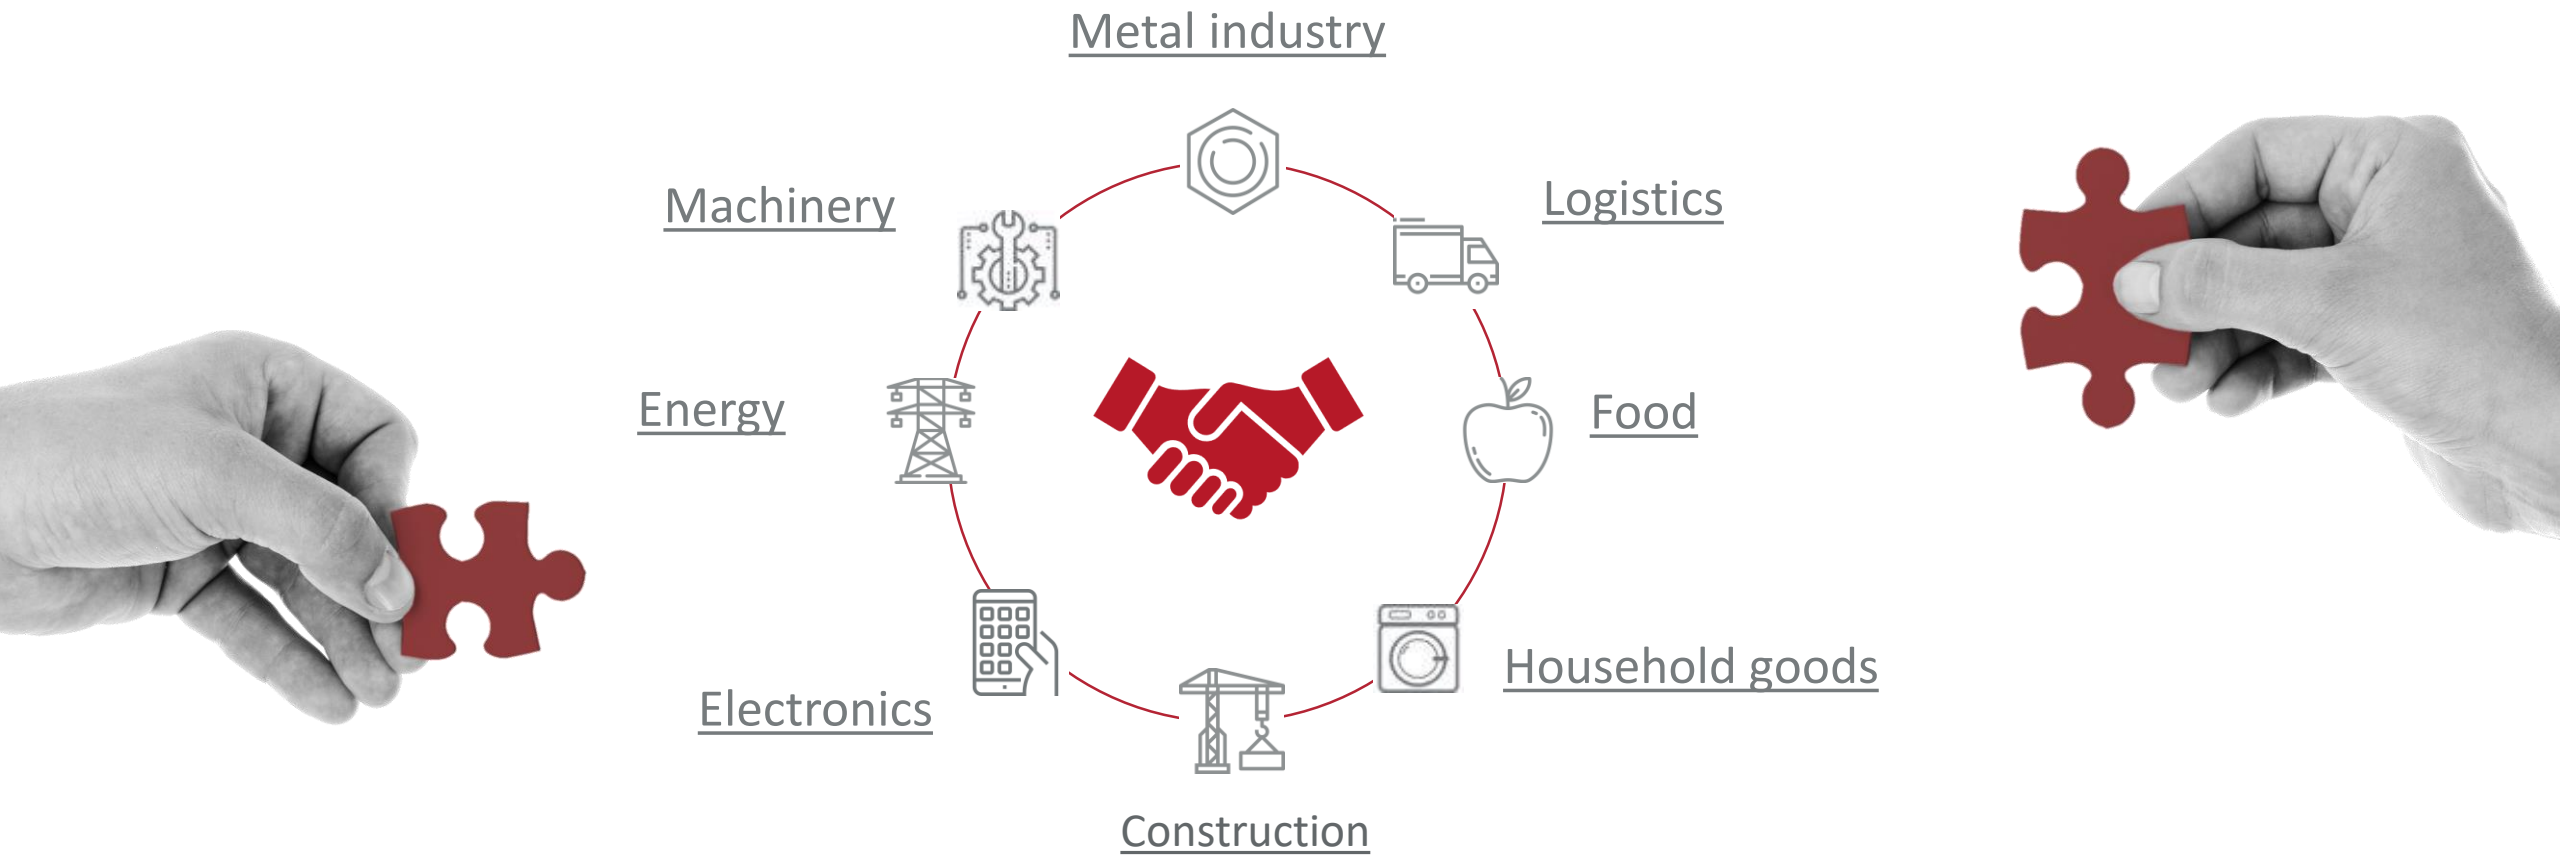

This zone is located in 9 subzones with separate and individual investment regions. The total area is **1049.18 ha**. **136 permits for running a business** were granted in TSSE EURO-PARK WISŁOSAN so far. 84 companies have already started investing activities. Entrepreneurs have created nearly **13,000 new jobs** so far. Capital expenditures in the Zone exceeded PLN 2 billion.

### Starachowice Special Economic Zone

The area of the zone is **707.108 ha**. In total, **176** business permits were issued in SEZ "Starachowice", which resulted in investments in the amount of PLN **2532 million** and **8289** work places. The zone offers areas with industrial facilities - production halls, warehouse and office buildings - as well as plots ready for development.

**Masłów Airport** (charter flights) - currently the airport handles irregular, sports and business flights. The increase of its function and significance will take place after expansion and modernization.

**Concept of construction of Kielce Regional Airport** (regional, international, cargo flights) - construction of an airport from scratch (distance of about 25 km south of Kielce) will improve transport accessibility to Kielce Trade EXPO center and spas and tourist destinations.

### Świętokrzyskie – access to significant transport corridors

There are eight national roads crossing the region, with a total length of 731.876 km. The region is crossed by two express roads of significant importance - No. 7 in the north-south direction and road No. 74 in the west-east direction, their expansion is planned.

### Railway network

There are 10 sections of railway lines with a total length of 724.9 km across the area of the Świętokrzyskie Voivodeship, of which 270 km are national lines, including line No. 8: Warsaw - Radom - Kielce - Krakow. The most important for the voivodeship's economy are railway junctions in Kielce and Skarżysko Kamienna, station in Sędziszów and stations servicing the mining industry and related processing: Rykoszyn, Sitkówka-Nowiny, Małogoszcz and Ożarów

### Public universities

### Private universities

## Strengths (based on voivodeship strategy)

---

Rich deposits of mineral resources, especially for the construction sector
Extensive experience in industrial activity - mining and processing sector of mineral resources and the metallurgical and metal sector
Good natural and cultural conditions for tourism, including health spa tourism
Location in the central-southern part of Poland, with the access to significant transport corridors
Kielce trade and exhibition center
Large resources of qualified employees in the industrial sector and construction
