

# DTS20 PARTNERSHIPS

# INTRODUCTION

Dublin Tech Summit (DTS) is a two-day international conference that sits at the heart of the Irish tech scene. As one of Europe's most active technology hubs, Dublin has become the EMEA base for some of the world's fastest-growing tech companies, and in just three short years has seen DTS emerge as Ireland's largest and most prestigious international tech event.

We have built a community of innovators, thought-leaders, and influencers that are turning ideas into reality and affecting global change, with DTS bringing together leading names in tech for two days of networking, presentations, investment, knowledge-sharing, creating business opportunities, and of course... the craic!

With 8000+ attendees from 50 countries, 200 fascinating speakers and over 300 media representatives, DTS attracts a wide range of decision-makers from around the globe and provides an effective platform for both established and emerging tech companies to accelerate growth.

We look forward to working with you at **DTS20**

## TESTIMONIAL - TRAVELPERK

*"As an emerging tech company, DTS was an obvious choice for us. We met prospective clients, connected with partners in the tech space and were happy to swap insights with industry players on stage. All-in-all, the event was great for our pipeline as well as our brand image."*
