and 2nd in the business friendliness category among major cities;

The Silesia Region – European Entrepreneurial Region in 2021-2022,

among the top ten European regions in terms of attracting FDI and cost-effectiveness

FACTS ABOUT THE POLISH ICT SECTOR

Europe's top talents

According to the *IT Competitiveness Index**, in the "Talent" component Poland is number one over all the rated countries. In addition, Poland ranked in the top four in eleven of the forty five categories.

4th Most Favored Offshore CX Delivery Location

Poland is the only European nearshore location in the list, which has been ranked in the top 5 for the third year running.

Large talent pool

Studies related to the ICT sector have shown an increase in the number of students for another consecutive year. In the 2022/2023 academic year, more than 70,000 people studied these majors.

The most dynamic development of the digital economy

According to PwC forecasts, e-commerce to consumers alone will reach more than €42 billion in Poland by 2027. Such a fast growth rate of e-commerce value puts Poland at the forefront of countries that are the most dynamically developing the digital part of their economy.

The ICT market is growing in strength

It is estimated that the value of Poland's ICT exports will be close to €12bn by 2026, compared to €9bn in 2021 (an average annual growth rate of around 3.6%).

The export of ICT services in 2022 amounted to 14,3% of the total export of services from Poland

Poland is gaining more and more importance as a leader in the field of IT in Central and Eastern Europe. Investments by global players such as Google, Amazon, Microsoft and Data4 in data centers in Poland confirm the country's attractiveness for the technology industry.

WHAT MAKES US DIFFERENT

A land of smartest people

Poland ranks 10th in Top 10 Smartest Countries Based on Reading, Math and Science according to OECD.

Competence in English – no problem!

The majority of Polish programmers boast higher education. In addition, Poles have an excellent command of English (600 points in the English Proficiency Index), which places us 13th out of 111 ranking countries.

An environment of development for programmers

Poland has the largest pool of technology talent in Europe, with 250,000 programmers working here, accounting for 25% of the entire development community in CEE.

Your data is secure with us

Poland attaches great importance to international standards of intellectual property protection. As a result, it is recognized by major international corporations as a safe place for IT outsourcing.

Recognized as one of the best

Many global technology companies, such as Microsoft, Intel and Google, have invested in Poland, because of the quality of our IT environment. With data centers and R&D facilities, the Polish IT sector continues to grow.

Gaming-geeks

Games are one of Poland's strongest assets. Companies such as CD Projekt, Techland, Ten Square Games and 11 bit studios are proof that Polish companies provide the best experiences for gamers around the world.

DID YOU KNOW THAT

A strategic hub for the BSS sector

More than 85% of all IT professionals in Poland are employed in one of the seven largest IT hubs. Three Polish cities, Warsaw, Krakow and Wroclaw, are the most recognized globally as IT/ICT basins.

Krakow – the royal city for start-ups

Krakow is one of the most rapidly growing start-up centers, with 55,000 IT professionals and more than 500 technology companies. Every year Krakow's talent pool grows by 10%.

We have the best programmers

Poland maintains its strong position in the top three countries with the best programmers in the world.

More and more software companies

There are currently more than 1,300 software development companies in Poland, increasing by about 10% each year.
