BUYAN CASHMERE

The cashmere factory BUYAN was originally established in 1976 as a state-owned cashmere testing factory. In 1992, BUYAN was privatized and became the first company in Mongolia to have 100% private Mongolian investment. The founder of BUYAN, Mr. Jargalsaikhan Bazarsad, is an active politician who continuously proved himself to be a leader and pioneer in both business and politics. During the difficult times of transitioning markets during the 1990s, Bazarsad trusted his insight and ambitions in laying the foundations in building global recognition for Mongolian cashmere with BUYAN. The BUYAN factory has stood the test of time in a challenging environment – it has operated successfully and expanded while also providing very attractive work conditions for its employees.

HOVSGOL TRAVEL LLC

Hovsgol Travel LLC is one of the pioneers of Mongolia's tourism industry. When it was established in 1991, the company started with just three traditional Mongolian gers (yurts) located on the shores of Lake Khovsgol (Located in northern Mongolia, the second largest fresh water lake) catering to international tourists. Over time, the company expanded its operations to include two camps: Toilogt and Double Lake, situated along the shores of Lake Khovsgol, as well as five fishing lodges spread across some of Mongolia's most pristine rivers. Anglers stay in the gers or lodges while enjoying Mongolian countryside.

Toilogt camp now operates during all four seasons. Guest can choose to stay in yurts, teepees hotels rooms or wooden houses.

IKH URCHIN

IKH URCHIN LLC

Founded in 2017, "Ikh Urchin" LLC has been dedicated to researching Mongolia's forest resources, its composition, and the extent of its coverage.

"Our company implements tree and medicinal plant planting projects as part of its efforts to combat global climate change and desertification. Among these projects, we are planting and nurturing 1,888 cedar trees in Bogdkhan Mountain, which is the world's first protected area near Ulaanbaatar."

Ikh Urchin LLC plans to increase cedar forest in Mongolia by 20% within five years within the "20-30" project".

We created our own "PINUTA" brand intending to provide consumers with quality products to spread proper consumption and inform Mongolia's people about the fantastic benefits of cedar nut and how it is widely used in daily food worldwide.

THERMAL POWER PLANT #4

TPP4 is committed to sustainable supply for the electric energy Central Energy System (CES) of Mongolia and the heat energy of Ulaanbaatar city. The 4th thermal power plant was constructed in 1979-1991, and its power generating facility began operation in 1983. Thermal Power Plant #4 has eight boilers and seven steam turbines. The plant's installed capacity is 772 MW of electricity, 1586 GCal of heat generation. TPP4 is one of the biggest power plants in Mongolia that solely supplies approximately 59% of the total amount of electric power in CES and about 55% of the total amount of all heat energies in Ulaanbaatar. As one of Mongolian's leading energy companies, TPP4 implements projects regularly to provide reliable power energy for consumers, to rehabilitate the equipments and employ new technologies in order to provide environmentally friendly energy production and to improve the management continuously.
