Poland's Commitment to Humanitarian & Development Aid

■ A Solidarity-Driven Mission

Poland plays an active and consistent role in both humanitarian and development aid. The Polish Government, along with a wide range of aid organizations, is committed to providing support where it is needed most both in emergency situations and through long-term initiatives. These efforts are rooted in the principles of international solidarity, with actions taking place across developing nations and crisis-affected regions around the globe.

■ Saving Lives, Supporting Dignity

Polish humanitarian and development aid focuses on:

- Saving lives
- Ensuring respect for human dignity
- Providing care and protection to populations affected by natural or man-made disasters
- In addition, Poland is actively involved in social development initiatives and programs that raise global awareness of development challenges.

■ Strategic Focus Areas

Current geographic priorities for Polish aid include:

- Eastern Partnership countries
- Nations in Africa, Asia, and the Middle East
- Poland's approach is guided by the strategic framework:

"The Multiannual Programme for Development Cooperation 2021–2030. Solidarity for Development", aligned with the UN's 2030 Agenda for Sustainable Development.

■ Ukraine: A Special Partnership

Since March 2022, Ukraine has held a central position in Poland's humanitarian and development aid strategy under the **#PolandFirstToHelp** initiative. Due to its geographical proximity and strong cultural ties, Poland has become a natural and trusted partner in efforts related to Ukraine's reconstruction. Through institutions like the Polish Investment and Trade Agency (PAIH), Poland supports:

- The creation of strategic reconstruction programs
- Ongoing humanitarian assistance
- Business collaboration with Ukrainian and international partners

■ Enabling Cooperation & Business Support

PAIH also plays a key role in:

- Assisting Polish companies in securing international humanitarian and development contracts
- Acting as the first point of contact for foreign organizations seeking partnerships with Polish enterprises

■ A growing number of Polish companies actively contribute to humanitarian and development missions worldwide. Polish entities have gained extensive experience in:

- Supplying specialized equipment
- Developing operational procedures
- Collaborating with major international organizations

COMPANY NAME:

Airsafe

WEBSITE:

www.airsafe.pl

Safer Landings. Smarter Missions.

PRODUCTS:

- Low-cost aerial delivery system
- Cargo Parachute Release
- Cargo hook for drone
- Soft landing system

CERTIFICATES:

CE

TYPE OF PARTNERSHIP:

International trade and distribution

YEAR OF ESTABLISHMENT:

2016

NUMBER OF EMPLOYEES:

5

Airsafe Sp. z o.o. designs and manufactures equipment that enhances the safety of aerial operations. Our offering includes a soft-landing system for parachute-dropped cargo, devices that automatically detach the parachute after landing, as well as an autonomous mechanism for attaching and releasing drone payloads. Our solutions support rescue missions, humanitarian aid deliveries, and the transport of equipment sensitive to damage—wherever the rapid, safe, and cost-effective delivery of cargo is of critical importance. Thanks to these technologies, it is possible to significantly increase the range and safety of drops, reduce the risk of cargo damage, improve personnel safety in drop zones and enhance the overall efficiency of operations in challenging terrain conditions.

COMPANY NAME:

**ENFORCE Medical
Technologies Sp. z o.o.**

WEBSITE:

www.enforcemed.pl

PRODUCTS:

Restoring Mobility. Empowering Recovery.

Prosthetic components:

- Feet: ENFORCE Bionic foot, ENFORCE Dynamic foot, ENFORCE Active foot,
- Knee: ENFORCE BioKnee,
- ENFORCE 3D prosthetic socket,
- Adapters (made from aircraft alloys)

100% of components are manufactured in Poland.

We also offer a dedicated training program for prosthetists, covering 3D scanning and printing as well as motion capture analysis.

CERTIFICATES:

- All components are registered as Class I medical devices in the EU and Ukraine; KSA registration is in progress.
- The Bionic system meets EMC requirements (EN IEC 60601) and prosthetic components are tested in accordance with EN ISO 10328 and PN-EN ISO 22675:2016-10 standards.

TYPE OF PARTNERSHIP:

International trade and distribution

YEAR OF ESTABLISHMENT:

2017

NUMBER OF EMPLOYEES:

20

ENFORCE Medical Technologies is a leading Polish company in the field of lower limb prostheses. It offers innovative solutions like the Bionic Foot, which enhances mobility with app-based activity monitoring and remote diagnostics, allowing real-time adjustments and software updates. The Dynamic Foot improves stability on various terrains. By using 3D printing for prosthetic sockets, ENFORCE reduces costs and production time.

Since 2022, the company has supported Ukraine with prosthetics and training. Thanks to their mobile technology, ENFORCE can quickly train new specialists anywhere in the world, demonstrating a commitment to global cooperation and advancement in medical technologies.
